Product Information

OPN-Rust Shock®

quick rust remover with cold shock-effect

- ***looses rusted screw and plug connections***

Properties:

- the „chemical wrench“ with double effect.
Due to „cold shock“ and associated material shrinkage as well as rapid penetration of the high performances oils, problems with rusted screwed and plug connections are quickly solved

Application Range:

- extreme cooling = cold shock up to approx. -40°C and the used special oils allow a quick release
- **for use**
 - in maintenance and repairs
 - in car workshops
 - in industry, construction, agriculture etc.

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Remove gross contaminations. Shake can well. Spray on the rusted parts from the shortest distance possible and allow to react for about 1-2 minutes. Repeat the procedure in persistent cases.

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 60555

Spray: 500 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!
