- alkaline -

- „quick cleaner“

Properties:

- **Optimal for cleaning:**
 - Greases, oils
 - Lubricants
 - Dirt
 - etc.

Application Range:

- Machinery and industrial facilities, industrial floors, tiled walls, many plastics and plastic floors, washrooms, etc.

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Depending on the contamination dilute 1:10 to 1:50 with cold or warm water. Apply solution to the objects and surfaces to be cleaned - let it react shortly. Maybe manual treatment for heavy soiling. Always rinse thoroughly with clean water. Can also be used in steam jet, high pressure and foam equipment.

IMPORTANT: Be sure to observe instructions of the device manufacturer and carry out a test for suitability!

Only for professional use! Always observe safety data sheet before use.

Ingredients:

Contains less than 5% anionic, nonionic surfactants, phosphates, dyes.

Delivery information:

Art.-No. 16061 Disposable Canister: 10 liters content

Art.-No. 16063 Disposable Canister: 30 liters content

Observe the information on the label and of the EC-safety data sheet!

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
