Product Information

OPN-Ceramic Welding Separation and Protection Spray

- ***silicone-free***

Properties:

- The silicone-free, ceramic protective coating persistently prevents the adhesion of welding spatters in MIG/MAG welding
- When used for plasma and laser cutting, **always observe the guidelines of the equipment manufacturer!**
- silicone-free, smooth and dry protective film
- long-lasting effect, thereby saving time and money
- no loss of time because of fast drying
- after evaporation of the solvents, the product is temperature-stable up to approx. 600 °C

Application Range:

- protection coat for prevention against adhesion of welding spatters at MIG/MAG-welding, plasma cutting and laser cutting (**always observe the guidelines of the equipment manufacturer!**)

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the product is misused. The can should have "room temperature" at processing. **Before use and after each spray break shake the can well for at least 1 minute.** Spray in the cold nozzle from about 10 cm distance and let it dry at least 60 seconds (depending on the ambient temperature). Then start welding. **Do not let active substance get into weld seam. Do not spray into cavities! - Start welding process after good ventilation. Do not place can within ignition/sparking zones.**

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 60200

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
