Product Information

OPN- Mold Release Spray for Plastic Processing

- **silicone-free**
- **wax-free**
- **solvent-free**

Properties:

- release agent - for **removal of many thermoplastics and thermosetting plastics** - always test suitability
- silicone and wax-free special oils
- long service life since solvent-free
- subsequent treatment as printing, painting, metallizing, bonding, etc. possible if handled properly - **but always test suitability previously**

Application areas:

- for Plastic Processing, for removal of many thermoplastics and thermosetting plastics

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Clean molding from possible residues! Spray cold molds **wafer-thin**, best spraying distance 30-40 cm. The thinner the active substance application, the better the separation result. **Important:** In case of subsequent treatment such as printing, bonding, painting, etc. a previous **test** and possible cleaning must **always be** carried out!

Only for professional use! Always observe safety data sheet before use!

Delivery information: Art.-No. 60230

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
