Product Information

OPN-Contact Spray

- *infiltrates moisture*
- *eliminates ignition interference*
- *removes and protects against oxidation*

Properties:

- moisture protection for electrical equipment and installations
- infiltrates moisture - forms a water displacing, clear protective film without affecting the conductivity
- penetrates and dissolves oxide layers and protects against new oxidation
- eliminates ignition interference and creeping currents
- crawls into the smallest cavities and narrow windings
- behaves neutral to many plastics, insulating varnishes, glass, ceramics and metal

Application Range:

- vehicle trade, industry, construction and agricultural machines
- where contacts have to protect of moisture

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Shake can well before use - apply targeted. Do not spray on electrical live parts and cables. Only put under voltage again when solvents have evaporated completely. Not suitable for electronic systems, computer equipment, etc. Always check before use if this product is suitable and approved according to current guidelines for the respective application!

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 60456

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!
