Product Information

OPN-PU-Foam-Cleaner-Spray

- *for cleaning of many common foam guns*
- *for removing fresh PU foam contaminations from many durable surfaces*

Properties:

- highly concentrated special cleaner, fits many common PU foam guns
- for removing fresh PU foam
- because of attachable spray nozzle suitable for the cleaning of PU foam guns and of durable objects
- also outstandingly suitable for the cleaning of steel, aluminum, glass, hard rock and unpainted wood, **after prior test**

Application areas:

- for cleaning of many common foam guns
- for removing fresh PU foam contaminations from many durable surfaces

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the product is misused. Always test material compatibility before use! Remove cured PU foam residues. Screw the cleaning can firmly into the gun. Operate the trigger several times. Let OPN-PU Foam Cleaner react for a longer time. If the gun should be put out of operation or if spare parts have to be replaced, it is recommended to repeat the cleaning process several times. **To remove PU foam from objects - use the attached spray head.**

Please note:

Do not spray on painted parts, plastics, leather, rubber, etc. Do not spray onto live wires or live parts. When processing larger quantities in small rooms use explosion protection.

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 60730
