## ***Product Information***

### ***OPN-Skin Protection Fluid***

- ***Does not form grease film, is not visible***

#### **Properties:**

- High-quality skin protection against harmful and irritating substances, e.g. oils, water, tar, bitumen, cement, lime, many colors, etc.
- In case of aggressive substances, apply active ingredient extremely carefully, repeat regularly, at short intervals, depending on the aggressiveness of the contact media, **wear protective gloves if necessary**
- Forms an invisible, non-noticeable, non-greasy protective film
- Skin protection foam is dermatologically proven

#### **Application Range:**

- For all works which require skin protection
- Plants where mineral oil is processed
- Chemical processing plants
- In car workshops
- In building construction and civil engineering, road construction etc. etc.

#### **Application:**

**Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the product is misused. Be sure to observe the applicable safety regulations at the workplace.** Shake can well before use. Apply skin protection foam before start of work on dry, clean skin, rub in thoroughly, do not forget nail beds and bottoms, thumbs and fingertips! Let it absorb for approximately 2 minutes. Repeat skin protection at short notice depending on the type of substances with which one comes into contact. **This skin protection does not replace protective gloves! Protect can from frost!**

**Only for professional use! Always observe safety data sheet before use.**

**Delivery information: Art.-No. 60950**

Spray: 250 ml Content, Packing Unit: 12 Cans/Carton

**Observe the information on the label and of the EC-safety data sheet!**

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
