Product Information

OPN-Cooling Spray

- **instant cooling effect up to about -45°C**
- **ATTENTION: Content/agent 100% highly flammable gas propane/butane**

Properties:

- instant cooling effect up to about -45°C

Application Range:

- installation aid - shrinks metal parts and facilitates the fitting of bearings, bushings etc. in tight fits
- rapid localization of thermal defects in electrical and electronic components and devices
- functional testing of thermostats
- for cold start simulation in the automotive sector
- allows easy removal of chewing gum from even surfaces

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Always check before each use, whether this product is suitable according to applicable guidelines and approved for the application! Spray on the spots to be cooled for a few seconds. Depending on the spraying duration, the cooling effect can be increased or decreased. **Product is extremely flammable - do not spray on electrical parts or cables under tension! Only put parts back under tension when propellant is flashed off completely. Do not spray onto hot parts! Buildup of explosive mixtures possible without sufficient ventilation. Do not spray in unventilated, narrow cavities. Take precautionary measures against electrostatic discharges. Attention: In case of physical contact danger of frostbite!**

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 61011

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!
