## **Product Information**

### **OPN-Zinc Spray**

**- zinc like bright -**

- **high zinc content in dry film**
- **long-term corrosion protection**

#### **Properties:**

- optically aligned with fresh hot dip galvanizing
- metallic pigments can resist temperatures up to about +400°C for a short time
- fast drying, thereby time saving
- long-term corrosion protection for steel parts

#### **Application Range:**

- for repairing welded seams, defects etc. of galvanized constructions

#### **Application:**

**Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the product is misused.** The can should be at room temperature and **only be sprayed in good ventilated areas.** Before each use shake can well for 2 minutes until the stirring ball moves freely. **Try and test on similar surface for material compatibility.** Remove rust and degrease the surface thoroughly and spray crosswise at a distance of 20 to 30 cm. In case of several layers let it dry for 5 minutes before spraying the next layer. **Self cleaning nozzle.**

**Only for professional use! Always observe safety data sheet before use.**

#### **Delivery information: Art.-No. 63100**

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

**Observe the information on the label and of the EC-safety data sheet!**
