Product Information

OPN-Zinc Repair Spray

- bright silver -

- **highly stressable**
- **fast drying**

Properties:

- colour bright silver - **zinc-like-bright** -
- **nearly not distinguishable from fresh hot dip galvanizing**
- heat resistant from the metallpigments up to about +400°C
- long-term-protection from weather influences
- fast drying, thereby time saving
- **triple corrosion protection** - zinc, alupigments and resins protect the coated steel

Application Range:

- repairs welding seams, defect, drilling and cutting points etc. on galvanized constructions
- for corrosion protection of metal parts

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. Can should have room temperature and only be sprayed at good ventilated areas. Shake can strongly for 2 minutes before every spraying process until the stirring ball is free. **Try and test on similar surface for material compatibility.** Remove rust and degrease the surface thoroughly and spray crosswise at a distance of 20 to 30 cm. In case of several layers let it dry for 5 minutes before spraying the next layer.

Self cleaning nozzle.

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 63120

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!
