#### **Application:**

**Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused.**

Can should have room temperature and **only be sprayed at good ventilated areas**. Shake can strongly for 2 minutes before every spraying process until the stirring ball is free. **Try and test on similar surface for material compatibility**. Remove rust and degrease the surface thoroughly and spray crosswise at a distance of 25 to 30 cm. In case of several layers let it dry for 5 minutes before spraying the next layer. Do not spray on synthetic resin coatings. **Self cleaning nozzle**.

**Only for professional use! Always observe safety data sheet before use.**

#### **Delivery information: Art.-No. 63410**

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

**Observe the information on the label and of the EC-safety data sheet!**
