Product Information

OPN-Clear Coat Spray

- **transparent**
- **abrasion-resistant**
- **fast drying**

Properties:

- forms a transparent, abrasion-resistant, weatherproof and dirt-repellent protective film
- protects against moisture, corrosion, oxidation, etc.
- fast-drying - leaves a glossy protective film

Application Range:

- protects aluminum, steel, chrome parts, signs, etc.
- can also be used as a topcoat for effect lacquers, but always test paint compatibility in advance!

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the products is misused. The can should be at room temperature and **only be sprayed in a good ventilated area.** Before each use shake can well for 2 minutes until the stirring ball moves freely. **Spray and test material compatibility on similar surface.** Remove rust and degrease the surface thoroughly and spray crosswise from a distance of 25 to 30 cm. In case of several layers let it dry for at least 15 minutes (drying time depends on ambient temperature, humidity etc.). **Do not spray onto live parts.**

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-No. 63430

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
