Product Information

OPN-Mold- and Brake Disc Corrosion Protection - curing

- **based on a special protective wax**

Properties:

- very good adhesion
- clean, highly water-repellent protective film
- high anti-corrosion effect
- non-slip, dry surface
- protects brake discs from corrosion when vehicles are not used for a long time
- prevents rust formation on brake discs
- protects metals and molds from weather influences, even under extreme conditions (overseas transport, tropics)
- storage protection for spare parts, these can be installed without processing
- pour point of the dry matter is 100°C

Application areas:

- to protect brake discs from corrosion
- for use in motor vehicles, agricultural machinery, construction machinery, etc.
- for preservation of bare metal surfaces
- to protect against corrosion and oxidation
- before post-treatment, e.g. painting, remove with OPN-Spray Cleaner

Application:

Our information are recommendations based on our experience. We accept no liability for any damage without tests concerning suitability for the specific application, without preliminary trials and if the product is misused. Cover areas which should not be treated. Clean surfaces to be treated, remove dirt and rust. **Shake can well before use for approx. 2 min.** Spray thinly from a distance of approx. 15 - 20 cm. (Treat brake discs on both sides.) Let the active substance dry (1 - 3 hours depending on ambient temperature and humidity). Do not use brakes during this time. If the vehicle is used again, operate the brakes until the anti-corrosion protection has rubbed off the brake discs, this should not be done on public roads.

Only for professional use! Always observe safety data sheet before use.

Delivery information: Art.-Nr. 63456

Spray: 400 ml Content, Packing Unit: 12 Cans/Carton

Observe the information on the label and of the EC-safety data sheet!

Our technical information has been compiled carefully to the best of our knowledge. Because of the many possible influences during processing and use of the products they do not relieve the processor of its own, conscientious exams! A legally binding assurance of certain properties or of the suitability for a particular purpose can not be derived from our information. Existing laws and regulations must be checked and observed from the processor of our products before use in his own responsibility.
